

NIAID

NATIONAL INSTITUTE OF ALLERGY AND INFECTIOUS DISEASES

Staff Clinician

The Laboratory of Clinical Infectious Diseases, National Institute of Allergy and Infectious Diseases (NIAID) seeks a licensed MD for the position of Staff Clinician for molecular and cellular diagnosis and patient care in a variety of infectious and immunodeficiency diseases.

These will include mycobacterial infections, fungal infections, and hereditary and acquired defects in immune function. The incumbent will conduct clinical diagnostic research and the management of protocols. Ideal candidate has knowledge of and experience in both basic scientific and clinical research and can work with minimal supervision alongside nurse practitioners, nurses, technicians and other investigators. Experience in Leukocyte Adhesion Deficiency type 1, Hyper-IgE recurrent infection (Job's) syndrome and chronic granulomatous disease is highly desirable.

QUALIFICATIONS: Applicants must have an MD or equivalent and board certification in Internal Medicine and/or Pediatrics. BC/BE in Infectious Diseases or Allergy and Immunology is preferred. Knowledge of immune diagnostics including flow cytometry is highly desired. Duties will be carried out under the direction of a Senior Investigator.
